

Dear Parent / Carer

We are excited to announce that we are launching our second sunflower growing project this summer. This will be another fundraising project to raise further funds for our Sensory Garden. We would now like to raise money to go towards seating and tables for the area so that children can have lessons in the garden.

All you need is one of our growing kits which you can purchase from the school for £1. We will be selling these kits before and after school on the playground. Keep an eye out for our stall on the KS2 playground (next to the Year 6 coffee stall).

In the kit you get everything you need: a pot to grow your sunflower (this year we have sourced some biodegradable ones), some compost, some seeds and instructions.

The grower (one per key stage) with the tallest sunflower will receive a prize! Please hand in the slip with the measurements of your sunflower when you come back to school at the beginning of September. You might also want to submit a photograph of you and your prize-winning sunflower for our display.

Happy planting and good luck!

K. Epps
